**VOLUNTARY ANNOUNCEMENT**

This announcement is made by Q Technology (Group) Company Limited (the “Company”, together with its subsidiaries, the “Group”) on a voluntary basis.

The board (the “Board”) of directors (the “Director(s)”) of the Company wishes to announce that the sales volume of major products of the Company in September 2018 are as follows:

<b>Product Categories</b>	<b>September 2018</b> <i>(’000 units)</i>	<b>Change Month- on- Month</b> (“MoM”) <i>(%)</i>	<b>Change Year- on-Year</b> (“YoY”) <i>(%)</i>
Camera Modules of 8 Megapixels and below	12,462	-24.6	+130.7
Camera Modules of 10 Megapixels and above <i>(Note 1)</i>	12,522	+1.0	+34.6

*Notes:*

1. Products include single camera module of 10 megapixels and above, dual camera module, 3D structured-light module and automobile camera module.
2. Total sales volume of camera modules decreased by approximately 13.6% MoM and increased by approximately 69.9% YoY respectively. The sequential decline was mainly attributable to the decrease of sales volume of certain products with resolutions of 5 megapixels and below entering end-of-life stage gradually and the impact of monthly cut-off timing. Camera modules with resolutions of 10 megapixels and above increased by approximately 1.0% MoM and approximately 34.6% YoY respectively. The changes are mainly attributable to the customers’ product cycle.
3. Total sales volume of fingerprint recognition modules increased by approximately 2.5% MoM and approximately 80.7% YoY respectively. The changes are mainly attributable to the market share gains of the Group of capacitive type fingerprint recognition modules and the customers’ product cycle of under-glass fingerprint recognition modules and other products.
