Notes:

1. Products include single camera module of 32 megapixels and above, dual/multiple camera module, 3D module, automobile camera module and other camera modules.
2. The YoY decrease of total sales volume of camera module products was mainly attributable to the YoY decrease in the sales volume of smartphones affected by the COVID-19 epidemic and the still short supply of key components in the smartphone supply chain. The MoM increase was mainly attributable to the customers’ project cycle.

3. The YoY increase of total sales volume of fingerprint recognition module products was mainly attributable to the market share gains of the Group in fingerprint recognition modules.
